

LUKE ALLISSTONE

Email: Lukeallisstonework@gmail.com

An **implementor**, team player, **openminded** individual, ability to pick up **technical** information in fast **operative** manner. During my work experience I aim to learn, develop, and **expose** myself to technology that I have mixed experience in, with the openness to **challenge** myself on certain projects. I intend to work in **Augmented Reality** as one of my most **intriguing** areas to focus on as well as **application development**.

Skillssets:

1. AR Foundation Augmented Reality interactive application development with: XCode, Visual Studio, C# and Vuforia object scanning, and Unity development. I have been Involved in creating two applications, both displaying, technical information about the features of the application.
2. React Framework.Js, HTML 5, PHP, CSS are my other skills in the developer studio, where I have created two client applications on two projects.
3. Lightroom, After Effects, Premier Pro are skills that I have developed overtime with mini projects for recreational purposes.

Work experience (2014-21)

Current work experience:

Worked at Spark emerging technology lab, the UK's leading VR and AR agency for 3 months, developing a wide range of Augmented Reality applications for the agency using Unity and C sharp. [Click for reference](#)

I run a successful clothing brand called STITCH.LDN with 11,600 followers on Depop, that has amassed over 450 orders in the last 6 months, totaling 2000 orders in its lifetime. This is a brand that has huge potential to grow beyond its current capabilities as, from September, the website will be live. This will enable scalability to occur where I plan to name STITCH.LDN as an official business this year.

Education:

Ryedale School, Nawton Beadlam (2011-16)

- 9 GCSEs, including English, Maths, Science, Geography, Design & Technology and Drama.
- PE Leadership course qualification.
- Membership of the local Army Cadet Corps.

Ampleforth College, York (2016-18)

- 3 A'levels in Business, Geography and Design & Technology.
- Driving License (clean, since passing in 2018).

Duke of Edinburgh Volunteer (2015-18)

I assisted the local Arts Centre in giving lighting and technical help, designed and developed playground equipment for a local primary school, in 2018. Also shooting, squash and orienteering for a five-day hike in the Scottish Highlands without GPS. I was awarded my Duke of Edinburgh Gold Award in Nov 2019, at St James' Palace.

NCS (2016)

Working as part of the National Citizens' Service, I contacted and presented our case to the local Council, to organise a successful fund-raising charity event for autism. I worked in a collaborative way with peers, local businesses and public speakers.

GAP year Volunteer (2018-19)

Working for Fox Farm Highland Lodge, Tanzania, my role varied from:

- Hospitality for international guests and families visiting the farm lodge, including VIPs, with organizing guest activities, and included guided tours, addressing hospitality issues, and providing support whilst communicating in Swahili.
- Purchasing analysis and employee wage administration and Managing staff on the Highland Lodge.
- The experience took me into off road driving with an insight into supervising people in varied and unfamiliar settings, whilst developing my leadership and management skills.

Student Undergraduate (2019 –)

University of Winchester, as part of a three-year BA/BSC programme in Digital Media Development.

RECREATIONS

Overseas travel, technology, photography, engagement with people and communication.
